How to update your directory and contact information

The UMES directories and listings of contact information are updated with information from the Payroll & Human Resources system, also known as PHR. This page outlines the steps to check and update your contact information and office location.

Step-by-step guide

1. Login to the PHR system by going to https://phr.umd.edu/phrdataverification/dataverif?action=dataverif. This site uses your College Park PHR username and password, not your UMES credentials.

   **Alternate Location**
   This website can also be accessed by going to the Time Entry website at https://timesheets.umd.edu and clicking on ‘Display/Update Personal Data’.

2. Click "Address Info" and Scroll down the page and find the sections labeled Office Address Information

   ![Click Address Info](image)
3. Be sure to select your Building and update Room as well as provide a phone number for Office Phone and Office Phone Extension.
4. For email address, be sure this address is your actual UMES e-mail address and ends with @umes.edu.

While the data verification form may say to change this if you want your email forwarded, we highly suggest keeping this as your official UMES e-mail address. Not doing so impacts the ability of the system to update your records properly.

5. You will notice the 'Optional Title for Directory' is not editable. If you would like this changed please contact our Human Resources office. Contact information can be found at https://www.umes.edu/HR.
6. To have your department updated, please submit a ticket at https://help.umes.edu
Submit a ticket at https://help.umes.edu with a request to update your department.

Any changes to this should be reflected in the UMES online directory within 24 hours.
