

E-mail Access

The following is provided to assist in setting up e-mail access using a variety of methods. This information is provided to assist as Information Technology cannot officially support every mobile device and e-mail program.

Students

Student mailboxes are hosted on the Google Apps for Education system and are very similar to a Gmail account. Please see the page at <http://learn.googleapps.com/gmail> for information on getting started along with Mobile device setup.

Employees

As of July 2019, employee email is hosted on the Google Apps for Education (Gmail).

- To access UMES Email; go to <https://mail.google.com/> and use your UMES email address and password.

Mobile Devices

Most devices can be Setup to access Gmail. Use your UMES username and password for access.
